SUMMARY

MSF candidate with a background in financial planning, forecasting, and valuation. Skilled in financial statement analysis, Excel-based financial modeling, and budget-to-actual reporting. Experienced in cross-functional collaboration, budgeting, and account reconciliation through hands-on financial operations roles. Comfortable adapting quickly to new reporting systems and platforms, and experienced incorporating AI-enabled tools into financial analysis workflows.

PROFESSIONAL EXPERIENCE & PROJECTS

Center for Applied Transportation Sciences

Tucson, Arizona

Student Intern— Operations & Finance Support

Nov. 2025 - Present

- Processed **30+ monthly financial transactions** (travel, procurement, reimbursements) using SAP Concur and university ERP systems, ensuring full compliance with institutional financial policies and funding restrictions
- Supported budgeting, financial reporting, and account reconciliation across multiple funding sources, ensuring accurate transaction classification and object code assignment
- Collaborated with cross-functional units (Business Office, AP, external vendors) to resolve account classification, object code, and payment discrepancies

Tucson Federal Credit Union

Tucson, Arizona

Risk Management Intern

Jun. 2025 - Aug. 2025

- Reviewed **over 300 dormant accounts** and high-value transactions under BSA/AML regulations, identifying multiple red flags and helping reduce Tucson Federal Credit Union's risk
- Conducted **20+ risk assessments** and internal testing, including website reviews and mystery shopping to identify potential reputational risks
- Executed **50+ zero-balance account closures** and coordinated with internal teams to comply with fraud prevention protocols

TXN Financial Model & DCF Valuation

Independent Project

Jul. 2026

- Built a fully linked three-statement financial model and DCF/WACC valuation for Texas Instruments (TXN) in Excel using 10-K data
- Found TXN's capex was funded by a \$4B drawdown in short-term investments and \$5.3B in new debt, not operating cash flow
- Estimated an independent intrinsic value range for TXN using Damodaran industry beta and equity risk premium data in the WACC calculation

Power BI FP&A Dashboard

Independent Project

Jul. 2026

- Developed a four-page Power BI dashboard (Executive, Sales, FP&A, Customer & Product Analysis) on a star schema data model with one fact table and four dimension tables
- Writing 8 DAX measures to support cross-page KPI analysis and department-level reporting
- Identified that the Furniture category generates high sales but disproportionately low profit margins, surfacing a category-level profitability gap for management review

EDUCATION

University of Arizona, Eller College of Management

Tucson, Arizona

Master of Science in Finance (MSF)

Expected Dec. 2026

National Taipei University of Business

Taipei, Taiwan

Bachelor of Business Administration in Finance | GPA: 3.69

Graduated Jul. 2024
